## OBJECTIVE

---

Backend-focused Computer Science undergraduate with experience in full-stack web development, RESTful APIs, and cloud deployment. Seeking an entry-level Full Stack Developer role to build scalable, user-focused web applications.

## INTERNSHIP

---

### AI & Cloud Intern (project)

Jun 2025 – Aug 2025

Edunet Foundation

- Built and deployed a cloud chatbot using IBM Watson Assistant with structured classification and dialog flows.
- Designed conversational workflows and fallback handling; deployed and documented the solution on IBM Cloud.

**Technologies:** IBM Cloud, Watson Assistant, Watson Studio, Azure (basic)

## PROJECTS

---

### Campus Cart — Student Exchange Platform

Oct 2024 – Jan 2025

- Developed RESTful APIs for CRUD operations, search, and student exchange workflows.
- Implemented backend logic to handle concurrent requests and preserve exchange state; reduced failed exchanges by ~15% (est.).
- Integrated frontend-backend communication for reliable multi-user interactions.

**Technologies:** MERN Stack

### BhashaSetu — Multilingual Web Application

Feb 2025 – Jun 2025

- Built an ML-backed translation service supporting Hindi, English and regional languages with text-to-speech.
- Developed Flask APIs to handle uploads, PDF extraction, model inference, and response delivery.
- Added Google API summarization of translated text; Improved processing consistency by ~25% (est.).

**Technologies:** Python, Flask, JavaScript, HuggingFace, Google APIs, PyMuPDF, PyPDFPlumber, AWS EC2

## SKILLS

---

|                              |                                                                                             |
|------------------------------|---------------------------------------------------------------------------------------------|
| <b>Programming</b>           | Python, JavaScript, C++, SQL                                                                |
| <b>Framework &amp; Tools</b> | Django, Flask, Node.js, Express.js, Bootstrap, Git/GitHub, Postman                          |
| <b>Libraries</b>             | NumPy, Pandas, Matplotlib, React.js, Sequelize                                              |
| <b>Core Concepts</b>         | Full-stack architecture, API integration, Machine Learning, deployment basics, OOP Concepts |
| <b>Soft Skills</b>           | Adaptable, Team-oriented, Collaborative, Leader                                             |

## CERTIFICATIONS

---

- Full Stack MERN Development Certificate — AITR
- Web Development Fundamentals — IBM SkillsBuild
- Generative AI Foundations — UpGrad
- AWS Academy Graduate — Cloud Architecting (training badge)

## EDUCATION & ACTIVITIES

---

### B.Tech, Computer Science Engineering

Nov 2022 – Jul 2026

Acropolis Institute of Technology and Research

(60%)

**Senior Secondary (HSC — Kendriya Vidyalaya :** (57%)

2021–2022

**Secondary (SSC) — Kendriya Vidyalaya :** (66%)

2019–2020

### Activities:

- Student Coordinator — IEEE International Conference (ACROSET), 2024 (~8 speakers)
- Organizing Team — E-Summit, EDC Acropolis
